50 Pts.

At the end of the Civil War, the Union was restored and the South needed to be reconstructed. Consider options and create a reconstruction policy to answer the following questions (this is YOUR plan, though the ideas of others may influence your plan):

1. What is the primary goal of reconstruction? Reunification, punishment, civil rights, other?
2. What should be done to ex-Confederates?
3. What should be done for the freedmen?
4. Who should be able to vote and hold office in the new southern state governments?
5. What requirements must be met before states regain full rights and representation?
6. How should the Southern economy be restored?
7. What role should Union troops play in policing, governing, or rebuilding the South?
